

**Woodford Folk Festival 2018/19
Stallholders Preferred Camping Layout for behind the Stall**

BACK OF STALL

FRONT OF STALL

Please draw your proposed camp layout, including any vehicles, caravans and any other request (including your staff) that you would like to place behind your stall.

We are unable to guarantee you can camp behind your stall. If your site accommodates camping, then your camp area cannot be wider than your stall and may only be 3m deep. Please be mindful of this. We try hard to accommodate everyone and may have to squeeze individuals around each other's camp space.

If you decide to camp in the stallholder's camping area this will give us more options of where we can situate your stall giving us a little more flexibility of where we place you.
