

**Woodford Folk Festival 2018/19
Stallholder's Site Layout**

BACK OF STALL

A large grid for drawing a stall layout, consisting of 30 columns and 20 rows of squares. The grid is intended for a stallholder to draw their stall layout, including any back-of-house areas like dressing rooms and storage.

FRONT OF STALL

Please draw your stall layout, including any back of house you wish to have (i.e. dressing rooms and storage). All of which are included within your preferred stall site size.

Please note: if you have asked for a 3x3 stall and a 3x3 camp, that is what you will be given, it is important you let us know exactly your footprint. For example do you need a car parked behind your site to lock goods up at night?

If you are booking a stall and hiring a marquee, it is your responsibility to let us know that the marquee for your stall is part of your camping space, we want to alleviate any challenges you may have when you bump in or when the hiring company arrive to set your 6x6m marquee in the 6x3m space you paid for.
